

2x Log sets by Copper Beech Play
 1x Incline Twine by Playdale Playgrounds
 Bug Magnifier Post by Playdale Playgrounds

Native ornamental grass planting provides more of a barrier between those using the recreation route and the highway.

Tall-growing shrubs such as Viburnum tinus help to punctuate spaces where tree planting isn't viable

Crocus planting beneath trees creates a flush of colour in early spring and is valuable for pollinators

An informal hoggin path creates a pleasant detour around the attenuation basin with seating opportunities

Tree planting helps to screen existing houses to the south, but also enhance biodiversity along the edge of the site, compounded with additional native hedge planting and wildflower

NOTES:
 - Impact absorbing surface such as rubber grass reinforcement mats in line with BS 1177 to be installed where required around play equipment.

KEY:

Softworks

- Red line boundary
 - Shrub and perennial planting
 - Ornamental hedge planting
 - Ornamental gravel
 - Bulb planting in lawn
 - Bioretention matrix planting
 - Bioretention central shrubs
 - Native hedge planting
 - Emorsgate Seeds EL1 Flowering Lawn Mixture
 - Emorsgate Seeds EM2 Standard General Purpose Meadow Mixture
 - Shade-tolerant wildflower mix to not include any toxic species
 - Emorsgate Seeds EM8 Meadow Mixture for Wetlands for attenuation basin base.
 - Emorsgate Seeds EM4 Meadow Mixture for Clay Soils
 - Proposed tree
 - Proposed specimen tree
 - Retained existing tree canopy
 - Retained existing hedgerow
 - Removed vegetation
 - Root protection area
- Hardworks**
- Buff block paving (subject to Highways approval)
 - Grasscrete parking spaces
 - Hoggin path
 - LEAP surface to be specified by play designer
- Other hard surfaces to be determined by drainage requirements**
- Street Furniture**
- Timber knee rail
 - Timber bench

NOTES:
 NOT FOR SITE PURPOSES: This drawing is a general arrangement plan only and is not intended for site purposes.

SCALE: Do not scale from this drawing.
SETTING OUT: All setting out, levels, dimensions to be agreed on site. Do not use the information on this drawing without checking all dimensions on site. Any discrepancies between drawings, specifications and site works are to be reported to The Urbanists. Order of construction and setting out is to be agreed on site.

CHECK: This drawing must be the latest revision, read in conjunction with all other drawings, details, specifications and schedules. All dimensions are in millimetres unless otherwise stated. Where a contradiction or uncertainty arises between the drawings and/or the schedule of works, it is the contractor's responsibility to seek verification from The Urbanists before proceeding. No claims will be met by The Urbanists, where the contractor continues work in absence of such confirmation.

No.	Date	By	Revision Notes
